<b>6.職務内容</b> Duties  <h3 style="text-align: center;">See attached list.</h3>			
<b>7.資格要件／身体条件</b> Qualification/Physical Requirements a. One year of specialized technical or administrative work experience at 1-6 level in the related work, <b>OR</b> possession of doctorate degree in accredited graduate school in a related field. b. Must be a college or university graduate with specialized education in mechanical engineering field, <b>OR</b> possession of an official engineering license in a related field. c. Knowledge of professional engineering concepts, principles, methods and practices in the mechanical engineering field to design and plan new construction and repair projects. d. Skill in operating Computer Aided Design (CAD) and associated databases such as Microsoft Access or Oracle. e. Ability to analyze project scope to determine manpower, materials, and equipment necessary to complete the projects and recommend/discuss improvements and changes with other project engineers. f. Ability to perform mechanical engineering design work for Heating Ventilation and Air Conditioning (HVAC), plumbing and industrial machinery/equipment design projects. g. Ability to speak, read and write English/Japanese at exceptional proficiency level. (LD-4)  * An applicant who does not fully meet the qualification requirements stated above may be considered at a lower grade level as below: <b>NOTE: Qualification stated in b. for 1-7 level is also required at 1-6 and 1-5.</b> 1-6: a. One year of specialized technical or administrative work experience equivalent at 1-5 level in the related work, <b>OR</b> possession of master's degree in a related field. 1-5: a. One year of clerical, technical, or administrative work experience equivalent at 1-4 level in the related work, <b>OR</b> completion of 4-year college/university in a related field.  * Handicapped applicants may be accepted, depending on the degree and kind of disability.			
<b>英語力</b> English Language Proficiency : <input type="checkbox"/> 必要なし None <input type="checkbox"/> 初級 Basic <input type="checkbox"/> 中級 Intermediate <input type="checkbox"/> 上級 Advanced <input checked="" type="checkbox"/> 特段の能力 Exceptional			
<b>学歴</b> Educational Background : See block 7 & 8		<b>免許証／修了証</b> License/Certificate Required : 7/8 欄参照 See blocks 7 & 8

## **ENGINEER (MECHANICAL) PRY211C, MLC525-7**

This position is located in the Public Works Department, Facilities Engineering and Acquisition Division (FEAD). The Facilities Engineering and Acquisition Division provide design, contractual procurement and administrative service for U.S.Navy, Marine, and other government appropriated and non-appropriated fund activities. The design and contracts involve construction, repair, maintenance encompassing all engineering disciplines, including safety and environmental requirements. The incumbent coordinates many facets of work with other Engineers and Engineering Technicians responsible for related engineering disciplines to arrive at mutually satisfactory approaches and solutions to technical engineering problems, and independently selects, interprets and applies standard guidelines, while modifying, adapting, and making compromises to meet the requirements of each assigned project. Additionally, the incumbent exercises self-judgment in applying good engineering principles in the design of new construction and repair projects. Reports directly to the Supervisory General Engineer

### **A: ENGINEERING DESIGN (70%)**

1. Performs mechanical engineering design work for medium-sized and non-conventional engineering projects.
2. Performs mechanical engineering design work for small-sized and conventional engineering projects containing complex features in isolated single units.
3. Coordinates the technical design of engineering projects with professional engineers and engineer technicians of other engineering disciplines as required by the size and scope of each projects.
4. Conducts engineering studies and investigations.
5. Completes advance planning and prepares schematic and working drawings for new construction, alteration, and major maintenance of facilities, systems, and equipment for formal construction contract award in the FEAD's area of responsibility and other areas throughout Japan.
6. Prepares contract specifications. Ensure that the contract requirements conform to U.S. Codes and Japanese laws, including safety, security and environmental.
7. Develops detailed independent Government Estimates for designed projects. Thoroughly analyzes project scope to determine the manpower, materials, and equipment necessary to complete the project. Information is critical for the evaluation of contractor bids.
8. Reviews and analyzes contractor's proposed prices and provide evaluation result to the Contracting Officer for acceptability.

9. Review contractor submittals for proposed materials to be used and shop drawings, and provides the Contracting Officer recommendations and comments for approval/disapproval.

10. Leads and assists professional engineers and engineer technicians to prepare instructions, guidelines and technical criteria for their use in developing design, drawing, specification and cost estimate.

11. Performs on-site inspection and survey, and provides technical advice/recommendation to resolve problems encountered under construction based on sound engineering judgment.

12. Performs Heating Ventilation and Air Conditioning (HVAC), plumbing, and industrial machinery / equipment design projects.

**B: TECHNICAL REVIEW (20%)**

1. Serves as a member of Technical Evaluation Boards that establishes technical selection criteria. Upon receipt of contractor proposals, against the established criteria to determine which contractor is best qualified to perform the desired work.

2. Reviews designs and drawings for medium-sized and non-conventional projects which have been prepared by Design-Build contractors for technical accuracy and conformance with U.S. Codes, Japanese Law, and NAVFAC Instructions and Directives.

3. Prepares review findings and provides recommendations for corrective action or alternate solutions to technical engineering problems.

**C: OTHER ASSIGNED DUTIES (10%)**

1. Project management data maintenance using NAVFAC e-Applications.

2. Performs other related or incidental duties as assigned.
